

Tree Health Update

February 13, 2023

1:00 – 3:30 PM

Shoal Creek Conservation and
Education Center

201 Riviera Dr.

Joplin, MO

(See attached map)

February 14, 2023

8:30 – 11:00 AM

Springfield Nature Center
4601 S Nature Center Way,

Springfield, MO

(See attached map)

Tree professionals working as arborists, foresters, nurserymen, landscapers, and public servants should attend this seminar. Learn more about current tree health problems and emerging invasive tree pests that are likely to affect the trees you work with in Missouri in the next few years.

ISA CEU's and SAF CFE's are being requested.

Registration is required!

Directions from Joplin to Shoal Creek Conservation Education Center:

At I-44's exit 6 (Main St.), go south on Highway 86, go through roundabout, just after the road crests the hill, enter the right turn lane, then turn into Wildcat Park.

Directions to Springfield Nature Center:

In Springfield from Glenstone Avenue: Follow Glenstone Avenue south across James River Freeway (US-60). Get in the left lane and follow the roundabout to Nature Center Way (outer road). The road dead ends at the nature center entrance.

From east of Springfield: Get on US-60 west, take the Glenstone Avenue exit. Turn left at the top of the off ramp at the stoplight. Get in the left lane and follow the roundabout to Nature Center Way (outer road). The road dead ends at the nature center entrance.

From west of Springfield: Go east on MO-360 and US-60 to the Glenstone Avenue / Republic Road exit. After exiting, turn left on Republic Road at the stoplight. Get in the left lane through the roundabout to Nature Center Way (outer road). The road dead ends at the nature center entrance.
